## Boost Your Process Efficiency

- Fast Epson scanners run at their full-rated speeds in PaperVision® Capture and PaperFlow™
- One button scan and quick upload to network or cloud-based storage takes less time, boosting efficiency
- Certified to work together, Epson scanners and Digitech Systems software and services speed your implementation, shortening time to value on your digitization project

**EPSON**<sup>®</sup>  
EXCEED YOUR VISION

## Enhance Control of Sensitive Data

- Information security improves the moment documents are scanned
- Software and services offer simple disaster recovery and data security options that don't require extensive setup or cost
- Flexible scanning and ECM allow you to tailor solutions to a variety of business needs including accounts payable, HR processes, and client/customer documentation

## Reduce the Cost of Records Management

- Scanned documents enable digitization of core business processes reducing system and personnel costs
- PaperVision® Forms Magic's artificial intelligence technology eliminates the need to sort documents prior to scanning and will automatically extract index information reducing manual effort and expense
- Immediate access to information empowers smart decision-making across the organization reducing wasted resources

Today's businesses need to solve complex information problems, including accessing and integrating critical data currently trapped on paper documents. Watch your revenues grow when you partner Epson scanners with Digitech Systems ECM suite to solve all your content challenges. When superior technologies unite, you can exceed your vision and get any document, anywhere, anytime.

# The All-in-one ECM Option You Want

Whether you've chosen PaperFlow™ for desktop scanning or PaperVision® Capture with the PaperVision® Forms Magic technology for advanced capture, Epson's high performance scanners make it easy to capture any document you need. After scanning, you can securely upload information to the cloud for collaboration and management in ImageSilo® or use PaperVision® Enterprise if you prefer to keep sensitive data on your own corporate network. Either option simplifies any process automation initiative you may have.
